

Sponsorships

The JavaScript CodeRetreat

Professionalize programming

September 6, 2014 • 3rd edition, Munich, Germany

September 12, 2014 • Pre-JSConf EU, Berlin, Germany

jscoderetreat.com

Wolfram Kriesing

- ▶ Founder of the JavaScript CodeRetreat
- ▶ Co-founder and CTO of uxebu GmbH, the first world's JavaScript company
- ▶ More than 17 years of programming experience
- ▶ Speaker and facilitator at countless IT conferences all over the world

Irene De Nicolo

- ▶ Co-founder of the JavaScript CodeRetreat
- ▶ Business developer and Marketer at uxebu GmbH
- ▶ Co-organizer of JS CodeRetreats through all Europe
- ▶ Mission: print a smile on the developers' faces

10 facilitators through all EU

6 cities joining

Over 200 attendees

92% “It was totally worth it”

Where and when?

It was first kicked off in **Munich**, but the event takes always place in various cities, simultaneously.

JS CodeRetreat Vilnius, March 2014

The JS CodeRetreat regularly takes place **every 3 months**

- Next dates:
- ▶ September 6, Munich, Global date
 - ▶ September 12, pre-JSConf EU, Berlin

- ▶ Maintain a high quality level event
- ▶ Constantly bring exceptional facilitators on stage
- ▶ Sharpen the developers' skills
- ▶ Educate about better coding
- ▶ Keep this event clearly distinct from a conference:
act a lot, listen very little

Sponsoring: a no-package format

This free day-long event needs sponsors for **food** (breakfast, snacks, lunch), **drinks** and **location**

Reach and interact with highly skilled web developers from the top european tech hub, Munich

Smart way of reaching the IT community for a reasonable price

Freely decide if you'd like to sponsor just the **Munich** event (local partner), our one-time **Berlin** event or all locations involved (global partners)

Berlin: don't miss the opportunity!

As an additional one-time event, we're proud to announce that we're organising a JS CodeRetreat in **Berlin** on the **12th of Sept 2014**, just before the massive JSConf EU

We're still looking for sponsors for **food and drinks!**

This is a perfect opportunity to be associated with the JS community: advanced web developers will be joining from all over the world
